What is Sadeed

The Problem and Solution

Problem

Most companies encounter barriers in communicating with customer over social media platforms

High Cost

Companies outsource the accounts or hire full time employees to manage accounts

Delay in Response

Account manager delayed in response to customer inquiries due to volume comments received

Spending Time

Account manager spending much time in moderate and filtering comments

Availability

Account manager not able to be online 24/7 to keep eyes on customer inquiries

No Data

Account manager don't have any stats or data about inquiries from social media customer

Solution

We offer web based platform to manage and organize social media accounts based on AI rules with following features

Save Cost

Availability 24 / 7

Fast Response

Save Time

Set Scenarios & Replies

Global Language Support

Filtering Comments
